Skills

- **Languages:** HTML, CSS, JavaScript
- **Frameworks:** ReactJS, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git, Github, Postman, VS Code

Work Experience

IT Executive

Apr 2023 - Current

CDAC, Noida

UP, India

- Designed and implemented **responsive frontend components** for an inventory management system used across **75 districts**, boosting operational efficiency by **20%**.
- **Resolved 50+ UI issues** through testing and debugging, reducing User Acceptance Testing (UAT) failures by **30%**.
- Collaborated with designers and backend developers to optimize system performance, **ensuring 100% cross-platform compatibility**.
- Streamlined SQL querying and data validation processes, **improving data accuracy by 25%** and enhancing frontend-backend integration.
- Delivered UI enhancements that improved user satisfaction scores by **15%**.

Investment Advisor

Jul 2022 - Mar 2023

ICICI Securities Ltd.

Ghaziabad, India

- Managed and enhanced client relationships, leveraging analytical and presentation skills.
- Successfully handled a client base of over 200, ensuring consistent service quality and enriching user experiences.

Projects

- **Ochi Studios:** Developed a **visually striking frontend** inspired by an **awwwards-winning design**, using **React.js** and **Tailwind CSS**. Integrated **dynamic animations**, **interactive elements**, and **smooth transitions**, ensuring a **responsive and captivating user experience**.
- **Taskmaster:** Built a task management app using **React**, **Framer Motion**, and **Tailwind CSS**, implementing **draggable task cards**, **status/priority updates**, and **local storage persistence** for seamless user experience across sessions.
- **Acme Notes:** Designed and optimized a responsive note-taking web application using **Tailwind CSS**, ensuring **intuitive UI** and seamless **cross-device functionality**.
- **Tic Tac Toe:** Developed a **two-player game** in **React**, using **state management (useState)** and **React hooks (useEffect)** to track winning patterns, trigger animations and enhance user experience.
- **Random User Generator:** Built a **React app** that integrates with an **external API** to display user profiles, adding **dynamic data fetching**, refresh features and a **custom loader**.
- **World countries:** Developed a country information app using **REST API integration** and **asynchronous JavaScript (fetch)** for dynamic data fetching and error management.
- **Age Calculator:** Developed a **responsive** age calculator using **React** and **Tailwind CSS**, incorporating **date validation** for leap years, varying month lengths, and future date restrictions to deliver accurate results and enhance user experience.

Education

- **Master of Business Administration (MBA)** 2022
E-University, Noida
- **Bachelor of Business Administration (BBA)** 2019
E-University, Noida

Certifications

- JavaScript Algorithms & Data Structures - **Free Code Camp**
- Microsoft Cybersecurity Analyst - **Coursera**
